

DIVISION OF RESEARCH AND EXTENSION

FACILITATION OF SUCCESSFUL RESEARCH PROPOSALS

The Research Oversight Committee recognizes that there are research proposals that have been developed outside the formal facilitation for research proposal development. Therefore, as a way of encouraging such efforts the Division of Research and Extension would like to appreciate by giving a token to the researchers for attracting donor funds.

We encourage those who have successfully attracted research funds from external donors during the period from 1st July 2016 to submit the following to DVC Research and Extension:

1. The grant award letter with clear indication of the amount coming to Egerton University.
2. A copy of the research proposal.
3. A signed consent from Egerton University team members (the form can be accessed from the Egerton University Research and Extension website).

Prof. A. C. Kibor, PhD
AG. DEPUTY VICE CHANCELLOR (RESEARCH AND EXTENSION)
